Zero Harm framework

Protecting people and the environment at Siemens Energy and Siemens Gamesa

Principles

Foundation for a strong and well-connected governance and assurance at all levels in the organization.

Behaviors

To be demonstrated by everyone in our company, no matter the type of work.

Essentials

Must be complied with by everyone performing this type of high-risk activity.

Building Blocks for local programs

Used by managers to establish a local Zero Harm Program based on work activities and the individual need.

- Mandatory
- Safety
- Health
- Environment
- Contractor management & temporary workforce
- Security
