2.3 Notes

2.3.1 General disclosures

Siemens Energy AG with registered office at Otto-Hahn-Ring 6, 81739 Munich, Germany is a large corporation within the meaning of Section 267 para. 3 s. 2 in conjunction with Section 264d German Commercial Code, and is registered in the Commercial Register maintained by the local court in Munich, Germany, under the entry number HRB 252581. Siemens Energy AG acts as the holding company of the Siemens Energy Group.

The Annual Financial Statements as of September 30, 2023 have been prepared in accordance with the regulations set forth in the German Commercial Code and the German Stock Corporation Act ("Aktiengesetz"). Amounts are presented in thousands of euros (€ thousand). Due to rounding, numbers presented may not add up precisely to totals provided.

The income statement is prepared using the cost-of-sales method.

The voluntary cash tender offer announced on May 21, 2022, to acquire all outstanding shares of Siemens Gamesa Renewable Energy S.A. was publicly placed on November 8, 2022, and completed in fiscal year 2023. Effective July 12, 2023, the Siemens Energy Group and thus Siemens Energy AG as the parent company indirectly became through its subsidiaries the sole owner of the company, which has been operating as Siemens Gamesa Renewable Energy S.A.U. since September 7, 2023. Expenses incurred at the level of Siemens Energy AG for consulting services in connection with the acquisition of the outstanding shares were charged to Siemens Energy Global GmbH & Co. KG, the owner of the Siemens Gamesa Renewable Energy S.A.U shares.

The Annual Financial Statements have been prepared in accordance with Section 252 para. 1 no. 2 German Commercial Code on the assumption that the Company will continue as a going concern. The continuation of Siemens Energy AG as the parent company of the Siemens Energy Group is directly linked to the continuation of the Group. The Executive Board arrived at this premise following a comprehensive review of the Siemens Energy Group's liquidity development. The review included the liquidity available at the balance sheet date, cash flow forecasts in line with general business planning, available and undrawn credit lines, the Group's credit ratings and the maturity profile of existing financial debt. In addition, the Group's guarantee credit lines were also taken into account.

2.3.2 Accounting and measurement principles

Classification of items in the annual financial statements – Siemens Energy AG aggregates individual line items of the income statement and balance sheet if the individual line item is not material for providing a true and fair view of its financial position and if such an aggregation improves the clarity of the presentation. Siemens Energy AG discloses these items separately in the Notes.

Revenue – Revenue is recognized when the service is rendered. Management services for affiliated companies are billed using the cost-plus method in accordance with the contractual terms.

Interest income – Interest income contains among others fees received for guarantees issued to Group companies in connection with Group financing.

Deferred taxes – Deferred tax liabilities are recognized if a future tax burden is expected due to differences between commercial and tax valuations in the balance sheet. Differences are measured using the company-specific tax rate at the time the differences will be reversed. Deferred tax liabilities and tax assets are not discounted. In the case of overall expected tax relief, the option to recognize a deferred tax asset is not used. To the extent that deferred tax assets correspond to existing deferred tax liabilities, these are netted.

Property, plant and equipment – Property, plant and equipment is measured at acquisition cost less accumulated depreciation and impairment losses. The company uses the linear method of depreciation. Low-value movable fixed assets that are subject to wear and tear are immediately expensed or capitalized and fully depreciated in the year of acquisition. The carrying amounts of office furniture and equipment are based on useful lives of generally five years.

Financial assets/ Income from investments – Financial assets are measured at acquisition cost or, if a decline in value is presumed to be other than temporary, the lower fair value. Impairment losses to the lower fair value are recognized, if objective evidence, particularly events or changes in circumstances, indicates an other than temporary decline in value. In case of an impairment in prior periods, a lower recognized value may not be maintained if the reasons for impairment no longer exist. Apart from the earning of profit shares, withdrawals from commercial partnerships where there is no demonstrable connection between the carrying amount of the investment and the company's equity, are typically recorded as income from investments, subject to the recoverability of the investment.

Receivables and other assets – Receivables and other assets are measured at their nominal values with consideration of all recognizable risks. Valuation allowances are determined on the basis of the probability of default and country risks.

Cash and cash equivalents – Cash and cash equivalents are carried at nominal value.

Prepaid expenses – Prepaid expenses are expenses incurred prior to the balance sheet date to the extent that represent expenses for a specific period after that date.

Asset / income and expense allocations – Assets that serve exclusively to fulfill pension obligations and partial retirement agreements and are not accessible to all other creditors (plan assets) are measured at fair value. The plan assets are netted against the respective obligation. If the fair value of the plan assets exceeds the amount of the obligation, the excess is recognized as a separate asset in the Active difference resulting from offsetting item. Income and expenses from the plan assets are netted against the expenses from the accrued interest on the corresponding obligations and reported in Other financial income (expense), net.

Pensions and other obligations – Siemens Energy AG measures benefit obligations from pension commitments on the basis of biometric probabilities at the necessary settlement amount, which is determined using the actuarial projected unit credit method. The discount rate used

is the average market interest rate published by the German Federal Reserve Bank (Deutsche Bundesbank) for a remaining term of ten years. As of September 30, 2023 Heubeck 2018G mortality tables were used.

Entitlements resulting from plans based on asset returns from underlying assets are generally measured at the fair value of the underlying assets at the balance sheet date. If the performance of the underlying assets is lower than a guaranteed return, the pension provision is measured by projecting forward the contributions at the guaranteed fixed return and discounting to a present value.

According to the Act on the Improvement of Company Pensions (Gesetz zur Verbesserung der betrieblichen Altersversorgung), Siemens Energy AG is secondarily liable for pension benefits provided under an indirect pension funding vehicle (mittelbarer Durchführungsweg). Siemens Energy AG recognizes the underfunding in the item Provisions for pensions and similar commitments as far as the respective assets of the pension fund or of the pension and support fund (Pensions- und Unterstützungskasse) do not cover the settlement amount of the respective pension obligation.

Other provisions – Other provisions are recognized with the settlement amount, taking into account future cost and price increases to cover individual obligations for all identifiable risks relating to uncertain liabilities. Provisions for agreed personnel restructuring measures were recognized for legal and constructive obligations. Provisions with a remaining term of more than one year are discounted using a discount rate which corresponds to the average market interest rate appropriate for the remaining term of the obligations, as calculated and published by Deutsche Bundesbank.

Liabilities – Liabilities are taken into account with the amount repayable.

Foreign currency translation – Receivables, other current assets, cash and cash equivalents, provisions, and liabilities, as well as commitments and contingencies denominated in foreign currency, are generally measured applying the mean spot exchange rate on the balance sheet date. Non-current assets acquired in foreign currency are generally measured applying the mean spot exchange rate on the transaction date.

Guarantees and other commitments – Warranty obligations to ensure performance obligations incurred from the delivery of goods or the provision of services, as well as warranty obligations relating to financing of affiliated companies, are recognized at their nominal amount.

2.3.3 Notes to the income statement

NOTE 1 Revenue / Cost of sales

Revenue in the amount of €48,065 thousand (2022: €36,340 thousand) resulted from providing management services to affiliated companies, as well as from fees received from Group companies for guarantees given to customers in connection with the provision of services in the amount of €5,803 thousand (2022: €1,914 thousand). The sharp increase was mainly due to the development of cost of sales, as management services are billed using the cost-plus method in accordance with the contractual terms. In addition, the volume of fees received from Group companies for guarantees given to customers in connection with the provision of services increased sharply. The fees received are only offset by a low amount of cost of sales.

Cost of sales essentially included personnel expenses resulting from the provision of management services to affiliated companies. The substantial increase was mainly due to the higher number of Management Board members and therefore increased associated expenses to be charged compared to the prior year.

NOTE 2 General administrative expenses

General administrative expenses mainly comprised expenses for services purchased, expenses for the Supervisory Board as well as expenses related to D&O insurance policies and increased sharply due to higher expenses for purchased consulting services compared to the prior year. The purchased services were in connection with the acquisition of the outstanding Siemens Gamesa Renewable Energy S.A. shares.

NOTE 3 Other operating income

Other operating income in the amount of €29,717 thousand (2022: €15,508 thousand) mainly included expenses charged on to Group companies for purchased consulting services in connection with the acquisition of the outstanding Siemens Gamesa Renewable Energy S.A. shares.

NOTE 4 Other operating expenses

Other operating expenses mainly included transaction costs of €15,185 thousand incurred in connection with the capital increase carried out on March 15, 2023, and expenses in connection with share-based payment in the amount of €97 thousand (2022: €142 thousand).

NOTE 5 Income (loss) from investments, net

	Fiscal year	
(in thousands of €)	2023	2022
Income from investments	68,343	17,305
thereof from affiliated companies	*68,343*	*17,305*
Income from investments, net	**68,343**	**17,305**

Income from investments included a withdrawal in the amount of €50,000 thousand from Siemens Energy Global GmbH & Co. KG to carry out the buyback of treasury shares in fiscal year 2023. An additional €18,343 thousand (2022: €17,305 thousand) were withdrawn for domestic and foreign income taxes in accordance with the provisions in the articles of association to ensure the recognition of income taxes at Siemens Energy AG in the balance sheet and was also reflected in income taxes.

NOTE 6 Interest income and interest expenses

Interest income from affiliated companies amounted to €72,958 thousand (2022: €4,584 thousand). Interest expenses to affiliated companies amounted to €61,467 thousand (2022: €3,369 thousand).

Interest income mainly included interest income in the amount of €61,306 thousand (2022: €2,879 thousand) from the Group-internal forwarded loan due to the mandatory convertible note issued in September 2022 between Siemens Energy AG and Siemens Energy Global GmbH & Co. KG. Interest expenses mainly included interest expenses in the same amount from the Group-internal forwarded loan due to the mandatory convertible note between Siemens Energy Finance B.V., Zoeterwoude, Netherlands and Siemens Energy AG.

NOTE 7 Other financial income (expenses), net

The other financial income (expenses), net mainly consisted of the interest result from the measurement of provisions for pensions amounting in the fiscal year to €504 thousand expenses (2022: €906 thousand income) and with €26 thousand expenses from the compounding of personnel provisions (2022: expenses from compounding €28 thousand). In addition, the other financial income (expenses), net included income from plan assets to be offset amounting to €24 thousand (2022: €27 thousand expenses).

NOTE 8 Income taxes

Income taxes exclusively comprised current domestic and foreign income taxes. The income taxes included a withdrawal in the amount of €18,343 thousand (2022: €17,305 thousand) from Siemens Energy Global GmbH & Co. KG according to the regulations in the articles of association, which is reflected in the income (loss) from investments. The surplus of deferred tax assets was not recognized due to the exercise of the option under Section 274 para. 1 s. 2 German Commercial Code.

NOTE 9 Other taxes

The expenses from other taxes amounted to €29 thousand (2022: €48 thousand) and are related to benefits in kind subject to sales tax.

2.3.4 Notes to the balance sheet

The business of Siemens Energy Group is managed by Siemens Energy Global GmbH & Co. KG and its direct and indirect subsidiaries. Siemens Energy AG is the parent company of Siemens Energy Group by holding the entire limited partner's shares in Siemens Energy Global GmbH & Co. KG and the entire shares in Siemens Energy Management GmbH.

NOTE 11 Receivables and other assets

(in thousands of €)	Sep 30, 2023	thereof maturities more than one year	Sep 30, 2022	thereof maturities more than one year
Receivables from affiliated companies	2,444,793	960,000	1,167,897	960,000
Other assets	8,783	—	4,799	—
Receivables and other assets	**2,453,576**	**960,000**	**1,172,696**	**960,000**

Receivables from affiliated companies in the amount of €2,444,793 thousand (2022: €1,167,897 thousand) included two essential receivables from Siemens Energy Global GmbH & Co. KG. Due to the mandatory convertible note issued in fiscal year 2022 by Siemens Energy Finance B.V., Zoeterwoude, Netherlands, two group-internal loans were concluded by means of which the proceeds received were forwarded past Siemens Energy AG to Siemens Energy Global GmbH & Co. KG. Siemens Energy AG will report a receivable from affiliated companies in the amount of €960,000 thousand (2022: €960,000 thousand) until the maturity of the mandatory convertible note in September 2025. In addition, Siemens Energy Global GmbH & Co. KG was granted an interest-free loan of €1,245,964 thousand on March 23, 2023, which is to be repaid in full on March 22, 2024. The loan was granted to pass on the issue proceeds from the capital increase on March 15, 2023, for the purpose of acquiring the outstanding Siemens Gamesa Renewable Energy S.A shares. Furthermore, receivables from affiliated companies included receivables from cash pooling with Siemens Energy Global GmbH & Co. KG, which were primarily related to share-based payments granted by affiliated companies.

As in the prior year, other assets essentially included receivables from tax authorities amounting to €5,670 thousand (2022: €4,651 thousand) and an applied research subsidy of €3,000 thousand was requested during the fiscal year which was reported at the level of Siemens Energy AG, as the tax group parent.

NOTE 12 Deferred tax assets

The calculation of deferred taxes resulted in a net deferred tax asset, which essentially related to the investment in Siemens Energy Global GmbH & Co. KG and the tax loss carryforward for corporate income taxes. The net deferred tax asset was not recognized due to the exercise of the option under Section 274 para. 1 s. 2 German Commercial Code.

A corporate tax rate (plus solidarity surcharge) of 15.8% and, if applicable, a trade tax rate of 16.5% were applied for the measurement of deferred taxes.

Subscribed capital

As of September 30, 2023, the capital stock of Siemens Energy AG amounted to €799,310 thousand and was divided into 799,309,712 registered no-par value shares, each representing a pro rata amount of the capital stock of €1.00 (2022: €726,645 thousand or 726,645,193 registered shares with no-par value). The shares are fully paid in. In principle, each share entitles the holder to one vote (subject to the restrictions for Siemens AG and Siemens Beteiligungen Inland GmbH arising from the existing deconsolidation agreement "Entherrschungsvertrag") and determines the shareholder's share of the Company's net income. In principle, all shares carry the same rights and obligations.

On March 15, 2023, the Executive Board of Siemens Energy AG, with the approval of the Supervisory Board, resolved to increase the capital stock of Siemens Energy AG by €72,665 thousand (divided into 72,664,519 shares with no-par value) to €799,310 thousand through partial utilization of the Authorized Capital 2023. The new, registered shares with no-par value were placed by way of an accelerated bookbuilding process under exclusion of the shareholders's subscription rights at a price of €17.32 per share.

Authorized capital (not issued)

By resolution of the Shareholders' Meeting of February 7, 2023, the Authorized Capital 2020 was cancelled and the Executive Board was authorized, with approval of the Supervisory Board, to increase the capital stock until the end of February 6, 2028, once or in installments by up to €363,323 thousand divided into up to 363,322,596 shares through the issuance of new no-par value shares registered in the name of the holders against contributions in cash and/or in kind (Authorized Capital 2023).

Following the capital increase on March 15, 2023, Siemens Energy AG's authorized capital was of up to €290,658 thousand divided into up to 290,658,077 shares as of September 30, 2023 (2022: €363,323 thousand divided into up to 363,322,596 shares). Under certain conditions, in particular in compliance with the maximum limits specified in the authorization, the Executive Board is authorized, with the approval of the Supervisory Board, to exclude shareholders' subscription rights for cash capital increases, firstly to grant employee shares, secondly for any fractional amounts, thirdly to grant a dilution adjustment in connection with convertible bonds or bonds with warrants that have already been issued, fourthly under certain additional conditions, if the issue price of the new shares is not significantly below the stock exchange price of the Company's already listed shares, and fifthly when a so-called stock dividend is carried out, whereby in relation to cases three to five the maximum limit of 10% of the capital stock was exhausted through the aforementioned capital increase.

Conditional capital

By resolution of the Shareholders' Meeting of February 7, 2023, the capital stock was conditionally increased up to €72,665 thousand divided into 72,664,519 shares with no-par value (Conditional Capital 2023) and the authorization of the Executive Board to issue warrant bonds and/or convertible bonds was renewed. The Conditional Capital 2023 serves the purpose of issuing shares to holders/creditors of convertible bonds or warrants under warrant bonds issued on the basis of the renewed authorization in accordance with the resolution of the Shareholders' Meeting on the same day. The conditional capital increase will be carried out by issuing up to 72,664,519 no-par value shares registered in the name of the holders only insofar as the holders and (or) creditors of convertible bonds or of option warrants from option bonds, which are issued by Siemens Energy AG or one of its consolidated subsidiaries until the end of February 6, 2028, on the basis of the authorization of the Executive Board through the Shareholders' Meeting of February 7, 2023, exercise their conversion (option) rights or perform their conversion obligation, and no other forms of fulfillment are used to service these rights. The issue of the new shares will be made at the conversion (option) prices to be determined, subject to the above authorization resolution, in the terms and conditions of the bonds or options. The Executive Board is authorized to decide on further details of the implementation of the conditional capital increase. The issued shares will participate in profits from the beginning of the fiscal year in which they are issued. To the extent permitted by law, the Executive Board can stipulate in deviation from the above and Section 60 para. 2 German Stock Corporation Act that the new shares will participate in profits from the beginning of a fiscal year that has already ended.

In addition, the Conditional Capital 2020 (by up to €72,665 thousand divided into 72,664,519 shares with no-par value, unchanged compared to September 30, 2022) remains in place, as it can be used to issue shares to service claims arising from the mandatory convertible note issued on September 14, 2022, with a total nominal amount of €960,000 thousand.

Capital reserve

Due to the capital increase on March 15, 2023, the difference between the issue price of €17.32 per share and the notional value of €1.00 per share was allocated to capital reserve. This increased the capital reserve by €1,185,885 thousand.

Furthermore, in the course of the share buyback, an amount of €6,573 thousand was allocated to the capital reserve corresponding to the nominal amount openly deducted from the subscribed capital in analogous application of Section 237 para. 5 Stock Corporation Act. The issuance of treasury shares under share-based-payment and employee share programs led to a reversal from the capital reserve in the amount of €6,518 thousand.

Treasury shares

As of September 30, 2022, the Company was authorized by resolution of the Shareholders' Meeting on September 18, 2020, to acquire treasury shares until the end of July 31, 2025, up to the amount equivalent to 10% of the Company's capital stock at the time of the authorization of September 18, 2020, taking effect or at the time when the authorization is exercised (if that amount would be lower). The shares acquired under the authorization together with other treasury shares already acquired and still held by the Company or which are attributable to it pursuant to Sections 71d and 71e German Stock Corporation Act must not, at any time, represent more than 10% of the relevant capital stock of Siemens Energy AG.

By resolution of the Shareholders' Meeting of February 7, 2023, the aforementioned authorization to acquire treasury shares was cancelled, and replaced by a new authorization of the Executive Board to acquire treasury shares for any permissible purpose in an amount up to a total of 10% of the capital stock until February 6, 2028, in accordance with the resolution of the Shareholders' Meeting.

The following table presents the development of treasury shares:

	Fiscal year
(in number of shares)	**2023**
Balance at beginning of fiscal year	7,118,997
Share buyback	6,573,037
Issuance under share-based payment and employee share programs	(6,517,873)
Balance at end of fiscal year	**7,174,161**

Siemens Energy AG held 7,174,161 treasury shares, equaling a nominal amount of €7,174 thousand, representing 0.90% of the capital stock.

On December 23, 2022, Siemens Energy announced a share buyback with a volume of up to €130,000 September 30, 2023 ending September 30, 2023, at the latest. In fiscal year 2023, Siemens Energy AG repurchased a total of 6,573,037 shares, completing the share buyback program on May 18, 2023. This represents a nominal amount of €6,573 thousand or 0.82% of the capital stock as of September 30, 2023. For this purpose, €130,000 thousand were spent excluding incidental transaction charges. This represents an average stock price of €19.78 per share. The purchase was made in the reporting period during 91 Xetra trading days and was carried out by a bank that had been commissioned by Siemens Energy AG; the shares were purchased exclusively on the electronic trading platform of the Frankfurt Stock Exchange. The average volume on these trading days was approximately 2,527,087 shares.

The treasury shares purchased under the share buybacks may be exclusively used for the purpose of issuing shares to employees and members of the Company's Executive Board as well as to employees and board members of affiliated companies in the context of share-based payments or employee share programs.

Siemens Energy AG allows employees and members of the Executive Board to participate in share-based payment programs. For the purpose of servicing share-based payment programs, Siemens Energy AG also delivers Siemens Energy shares, which have been granted by affiliated companies. In fiscal year 2023, Siemens Energy AG re-issued in total 6,517,873 treasury shares under the exclusion of subscription rights in connection with share-based payments and employee share programs in the Group, equaling a nominal amount of €6,518 thousand and 0.8% of the capital stock. As part of the Direct Match-program 2.656.936 shares were sold as investment shares to plan participants in return for payment of a purchase price. In each case, the purchase price was determined on the basis of the closing rate in Xetra trading, determined on a monthly effective date. The weighted average share price was €21.85 per share. Siemens Energy AG received €58,054 thousand in this way for unrestricted use.

The other shares re-issued during the reporting period were attributed to the servicing of stock awards granted in fiscal year 2023, to 1,159,663 matching shares under the direct matching program, to 748,591 shares for the Ratable Stock Awards program, to 1.575.682 shares for the All Employee program ("AEP"), to 147.529 shares for the Building Siemens Energy Incentive program and to 229,472 jubilee shares.

The Goldman Sachs Group, Inc., Wilmington, USA, informed us on September 29, 2023, that its shares of voting rights (held either directly or indirectly) in Siemens Energy AG on September 25, 2023, amounted to 1,014,903 voting rights or 0.13% of the voting rights.

NOTE 15 Provisions for pensions and similar obligations

In Germany, pension benefits are provided by the BSAV (Beitragsorientierte Siemens Altersversorgung) plans with legacy commitments and plans with deferred compensation. The majority of active employees participate in the der BSAV. Benefits under this plan are based primarily on nominal contributions and their investment returns, with the employer guaranteeing a minimum rate of return.

With the introduction of the BSAV, the effect from salary increases was mostly eliminated for benefits from the plans with legacy commitments. Siemens Energy continues to bear the risk from asset investment, interest rate changes and longevity for these plans.

The settlement amount of the provisions for pensions and similar obligations at the reporting date was €14,052 thousand (2022: €12,469 thousand). The actuarial valuation of the settlement amount was mainly based on the following parameters:

For pension obligations, the ten-year average interest rate of 1.81% was used in accordance with Section 253 para. 2 German Commercial Code. For other obligations, the seven-year average interest rate of 1.66% was used. Pursuant to Section 253 para. 6 German Commercial Code, the valuation difference from discounting pension provisions at the ten-year average interest rate to the seven-year average interest rate as of the reporting date amounts to €173 thousand (2022: €424 thousand). For plans with old commitments, a pension trend of 2.10% per annum and an income dynamic of 2.75% per annum were taken into account.

NOTE 16 Other provisions

Other provisions mainly included other personnel-related provisions of €3,527 thousand (2022: €3,218 thousand) and provisions for share-based compensation of €5,328 thousand (2022: €1,784 thousand), which increased sharply mainly due to the pro rata build-up of existing share programs.

In fiscal year 2023, the average number of employees working exclusively in administrative functions was 33 (2022: 39 employees).

NOTE 20 Share-based payment

Siemens Energy AG allows employees and members of the Managing Board to participate in share-based payment programs. For the purpose of servicing share-based payment programs, Siemens Energy AG also delivers Siemens Energy shares, which have been granted by affiliated companies.

Stock Awards

Siemens Energy AG grants stock awards to Executive Board members, members of the senior management and other eligible employees.

Stock awards to Siemens Energy AG beneficiaries are recognized as expenses pro rata during the vesting period and are measured on the basis of the Siemens Energy share price (intrinsic value) on the reporting date, taking account of the estimated target attainment for the stock awards performance criteria on the reporting date.

Under the Building Siemens Energy Incentive Program ("BSEI"), a low triple-digit number of employees who made key contributions to preparing the Spin-Off were granted a one-time Spin-Off incentive in fiscal year 2020. The initial value of the incentive consists of a percentage of the beneficiary's base salary at the grant date. The service period ended in September 2023.

Under the All Employee Program ("AEP"), similar employee Spin-Off incentive programs were set up in certain jurisdictions, to provide stock awards on substantially the same terms, but without a short-term cash component. The All Employee Program is a one-time incentive granted in fiscal year 2021. The service period ended in September 2023.

By way of the Performance-oriented Stock Awards Program, Siemens Energy grants stock awards linked to certain performance criteria to senior managers and Executive Board members. For stock awards granted in fiscal year 2022 and later, 40% of the target amount is linked to the relative total shareholder return (TSR) of Siemens Energy (TSR target), a further 40% to the basic earnings per share (EPS target) and the remaining 20% to an internal Siemens Energy sustainability target based on environment, social and governance targets (ESG target). The stock awards are subject to a vesting period of four years and entitle the beneficiary to receive Siemens Energy shares without payment of consideration following the vesting period.

The Ratable Stock Awards Program grants eligible employees stock awards that entitle them to receive one Siemens Energy share without payment of consideration at the end of a lock-in period. These special stock awards may be made up to three times in a fiscal year. The shares that make up the award are vested gradually which means that one quarter of the stock awards become exercisable each year.

Jubilee Share Program

The Jubilee Share Award policy provides, that for their 10th service anniversary, eligible employees will receive Siemens Energy jubilee shares worth €800; for each of their 25th, 40th and 50th service anniversaries, eligible employees will receive Siemens Energy jubilee shares worth €4,000. For each of their 25th, 40th and 50th service anniversaries, certain senior managers will receive Siemens Energy jubilee shares worth €18,000. Depending on the share price at the time, these amounts will result in the award of different numbers of shares.

Share Matching-Program

Under the global Direct Match Program, employees may invest a certain proportion of their compensation in Siemens Energy shares (investment shares). Plan participants have the right to receive one Siemens Energy share (matching share) for every three investment shares. Employees are entitled to participate if they have worked without interruption for the Siemens Energy Group throughout the vesting period of around three months. Both the investment shares and the matching shares are subject to a lock-in period of one year. The investment amount is up to 5% of the annual gross salary calculated for each country.

The employees of participating companies in Germany are entitled to receive two matching shares per investment share for an investment of €100 in Siemens Energy shares and one additional matching share per investment share for a further investment of €160. Neither the investment shares nor the additional matching shares are subject to a vesting period. For each further investment participants have the right to receive one free matching share for every three investment shares.

Under this award shares are granted to a certain monetary value. The fair value is therefore determined on the basis of a fixed amount on the grant date.

Matching shares granted to Siemens Energy AG beneficiaries are recognized as expenses during the vesting period and, as they are exercised, are evaluated pro rata on the basis of the Siemens Energy share price (intrinsic value) on the reporting date.

The carrying amount of the provisions for share-based payment amounted to €5,328 thousand as of September 30, 2023 (2022: €1,784 thousand) and increased sharply mainly due to the pro rata build-up of existing share programs. Pre tax expenses for share-based payment amounted to €3,544 thousand as of September 30, 2023 (2022: income €1,637 thousand).

NOTE 21 Guarantees and other commitments

(in thousands of €)	Sep 30, 2023
Obligations from guarantees	1,227,967
Warranty obligations	59,925,840
thereof relating to financing of affiliated companies	*23,203,726*
thereof relating to performance guarantees on behalf of affiliated companies	*36,017,172*
Guarantees and other commitments	**61,153,807**

In addition to the commitments disclosed in the table above, the following commitments exist as of September 30, 2023:

For the purpose of financing the Siemens Energy Group, a syndicated credit facility with a maximum total volume of €3,000,000 thousand is in place, which can be drawn on by several Group companies and for which Siemens Energy AG is jointly and severally liable. The credit facility was not drawn on as of the reporting date.

Moreover, a €3,000,000 thousand commercial paper program allows commercial paper issuances for Siemens Energy AG and Siemens Energy Finance B.V., Zoeterwoude, Netherlands. Siemens Energy AG is also jointly and severally liable for commercial paper issued by Siemens Energy Finance B.V., Zoeterwoude, Netherlands. At the reporting date commercial papers were outstanding in the amount of €431,661 thousand (2022: €0 thousand).

Siemens Energy AG has issued unrestricted letters of comfort for two subsidiaries to be liable for all obligations within the meaning of Section 264 para. 3 s. 1 No. 2 German Commercial Code, which are contained in the Annual Financial Statements of these subsidiaries for fiscal year 2023 and were entered into before the balance sheet date of September 30, 2023. These obligations comprise liabilities and provisions recognized in the Annual Financial Statements of the subsidiaries as of September 30, 2023, as well as unrecognized contingent liabilities and obligations from pending transactions. The letters of comfort and the associated obligations to assume liabilities expire at the end of fiscal year 2024.

In the Spin-Off and Transfer Agreement dated May 22, 2020, Siemens AG and Siemens Energy AG undertook to mutually indemnify each other against liability obligations pursuant to Section 133 German Transformation Act to the extent that such obligations are allocable to the relevant party obligated to indemnify, but, in external relations, claims can be asserted against the other party.

Siemens Energy AG only enters into guarantees and other commitments after careful consideration of the associated risks and, in general, only in relation to its own business activities or those of affiliated companies. Based on an ongoing risk evaluation of the arrangements entered into and taking into account all information available up to the date on which the Annual Financial Statements were issued for approval, Siemens Energy AG currently concludes that the relevant primary debtors are able to fulfill the underlying obligations. For this reason, any claims made against Siemens Energy AG in conjunction with any of the guarantees and commitments described above are deemed not probable.

NOTE 22 Appropriation of net income (loss)

For fiscal year 2023, the Executive Board and the Supervisory Board propose not to distribute a dividend and to carry forward the unappropriated net income of Siemens Energy AG for the fiscal year ended September 30, 2023, amounting to €64,941 thousand to the next fiscal year.

NOTE 23 Remuneration of the members of the Executive Board and the Supervisory Board

Individualized information about the remuneration of the Executive Board and the Supervisory Board is presented in the Compensation Report pursuant to Section 162 of the Stock Corporation Act, which is part of the Annual Report.

Remuneration of the members of the Executive Board

Total compensation and benefits granted to the members of the Executive Board in fiscal year 2023 amounted to €21,383 thousand. The fair value of share-based payments granted in fiscal year 2023 amounted to €7,849 thousand for 734,711 Stock Awards.

Total remuneration of former members of the Executive Board

Former members of the Executive Board did not receive any emoluments according to Section 285 para. 1 No. 9b of the German Commercial Code.

Remuneration of the members of the Supervisory Board

Compensation attributable to members of the Supervisory Board comprised base compensation and additional compensation for committee work amounted to €4,514 thousand in fiscal year 2023.

NOTE 24 Declaration of Compliance with the German Corporate Governance Code

The Executive and Supervisory Boards of Siemens Energy AG provided the declaration required by Section 161 German Stock Corporation Act as of September, 2023, and made it publicly available under the following link on the Siemens Energy website: **https://www.siemens-energy.com/global/en/company/investor-relations/corporate-governance.html#GermanCorporateGovernanceCode**.

NOTE 25 Events of special significance after the balance sheet date

In November 2023, the existing unrestricted letter of comfort for one subsidiary was prolonged until December 31, 2024 (see also **Note 21 Guarantees and other commitments**).

Members of the Supervisory Board and their mandates

As of September 30, 2023, the Supervisory Board of Siemens Energy AG comprised 20 members (ten shareholder representatives and ten employee representatives). The shareholder representatives on the Supervisory Board are elected by the Shareholders' Meeting by a simple majority vote. As a rule, elections to the Supervisory Board are conducted on an individual basis. The Supervisory Board's employee representatives will in future be elected in accordance with the provisions of the German Codetermination Act ("Mitbestimmungsgesetz").

In fiscal year 2023, the **Supervisory Board** had the following members:

3.2 Independent Auditor's Report

To Siemens Energy AG, Munich

REPORT ON THE AUDIT OF THE ANNUAL FINANCIAL STATEMENTS AND OF THE COMBINED MANAGEMENT REPORT

Opinions

We have audited the annual financial statements of Siemens Energy AG, Munich, which comprise the income statement for the fiscal year from October 1, 2022 to September 30, 2023, the balance sheet as of September 30, 2023 and the notes to the financial statements, including the recognition and measurement policies presented therein. In addition, we have audited the management report of Siemens Energy AG, which is combined with the group management report, for the fiscal year from October 1, 2022 to September 30, 2023. In accordance with the German legal requirements, we have not audited the content of the **Corporate Governance Statement pursuant to Secs. 289f and 315d HGB** ["Handelsgesetzbuch": German Commercial Code], which is published on the website stated in the combined management report, reproduced in chapter **4.5** of the Annual Report and is part of the combined management report, chapter **2.8.1 "Key features of the internal control and risk management system and statement on the appropriateness and effectiveness of these systems"** in the combined management report or the content of the Group **non-financial statement pursuant to Sec. 315b HGB** contained in chapter **2.10** of the combined management report.

In our opinion, on the basis of the knowledge obtained in the audit,

- the accompanying annual financial statements comply, in all material respects, with the requirements of German commercial law applicable to business corporations and give a true and fair view of the assets, liabilities and financial position of the Company as of September 30, 2023 and of its financial performance for the fiscal year from October 1, 2022 to September 30, 2023 in compliance with German legally required accounting principles, and
- the accompanying management report as a whole provides an appropriate view of the Company's position. In all material respects, this management report is consistent with the annual financial statements, complies with German legal requirements and appropriately presents the opportunities and risks of future development. We do not express an opinion on the content of the Corporate Governance Statement referred to above, chapter **2.8.1 "Key features of the internal control and risk management system and statement on the appropriateness and effectiveness of these systems"** referred to above and the Group non-financial statement referred to above.

Pursuant to Sec. 322 (3) Sentence 1 HGB, we declare that our audit has not led to any reservations relating to the legal compliance of the annual financial statements and of the management report.

Basis for the opinions

We conducted our audit of the annual financial statements and of the management report in accordance with Sec. 317 HGB and the EU Audit Regulation (No 537/2014, referred to subsequently as "EU Audit Regulation") and in compliance with German Generally Accepted Standards for Financial Statement Audits promulgated by the Institut der Wirtschaftsprüfer [Institute of Public Auditors in Germany] (IDW). In conducting the audit of the annual financial statements we also complied with International Standards on Auditing (ISA). Our responsibilities under those requirements, principles and standards are further described in the "Auditor's responsibilities for the audit of the annual financial statements and of the management report" section of our auditor's report. We are independent of the Company in accordance with the requirements of European law and German commercial and professional law, and we have fulfilled our other German professional responsibilities in accordance with these requirements. In addition, in accordance with Art. 10 (2) f) of the EU Audit Regulation, we declare that we have not provided non-audit services prohibited under Art. 5 (1) of the EU Audit Regulation. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinions on the annual financial statements and on the management report.

Key audit matters in the audit of the annual financial statements

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the annual financial statements for the fiscal year from October 1, 2022 to September 30, 2023. These matters were addressed in the context of our audit of the annual financial statements as a whole, and in forming our opinion thereon; we do not provide a separate opinion on these matters.

Below, we describe what we consider to be the key audit matter:

Impairment of non-current financial assets

Reasons why the matter was determined to be a key audit matter: We consider the impairment test of non-current financial assets to be an area posing a significant risk of material misstatement and accordingly a key audit matter, as in particular the impairment test of shares in affiliated companies entail a significant risk of material misstatement due to the materiality of these assets for the presentation of assets and liabilities as well as management's judgment involved in assessing whether there is objective evidence to indicate a lower net realizable value and permanent impairment. The determination of the net realizable values of non-current financial assets is dependent to a significant extent upon the estimation of future cash inflows, especially given the impact of quality issues, increased product costs and ramp-up challenges in the activities of Siemens Gamesa, an indirect subsidiary of Siemens Energy AG.

Auditor's response: In a first step, we gained an understanding of the process in place to test the non-current financial assets for impairment by obtaining explanations from employees of the finance department as well as by examining the underlying documentation. We assessed the Company's process to determine the net realizable value and examined management's analysis of whether there are indications of a permanent impairment.

In this connection, we assessed the determination of the net realizable values – using the discounted cash flow methods for the main Business Areas Gas Services, Grid Technologies, Transformation of Industry and Siemens Gamesa – of the companies included in non-current financial assets.

We evaluated the methodology and arithmetical accuracy of the valuation models for determination of the net realizable value with the assistance of internal specialists who have expertise in business valuation and assessed the future cash inflows used for the calculations by, among other procedures, comparing this information with the five- and seven-year plans prepared by management as well as by comparing the internal growth and earnings forecasts with general and industry-specific market analyses and analyst expectations regarding Siemens Energy and significant competitors. Furthermore, we examined the key assumptions and data of the plans, placing a special focus on the uncertainties regarding the development of the economic environment, the transformation of energy markets, also with respect to the expected effects of climate change and decarbonization trends, and assessed the consistency with the planned strategic measures and obtained explanations from management and assessed whether they were consistent, plausible and coherent. In addition, we analyzed significant changes in planning assumptions compared to the prior year, in particular taking into account the quality issues at Siemens Gamesa.

As part of our audit, we also assessed the sustainable earnings contributions and long-term growth rates used after the end of the detailed planning period by referring to market data and market expectations and the appropriateness of the methodology used for derivation of the weighted average cost of capital rates.

We also obtained and assessed as audit evidence the opinion prepared by an independent expert who was engaged by management for the plausibility test of the net realizable value in connection with the impairment test of goodwill of the Business Area Siemens Gamesa.

Our audit also included the assessment of the competence, capabilities and objectivity of the independent expert and the suitability of the opinion commissioned by management as audit evidence.

We also assessed the disclosures on non-current financial assets in the notes to the financial statements.

Our procedures did not lead to any reservations relating to the impairment test of non-current financial assets.

Reference to related disclosures: With regard to the recognition and measurement policies applied for the impairment of non-current financial assets, refer to the notes to the financial statements in chapter **2.3.2 "Accounting and measurement principles"** and with respect to non-current financial assets, refer to chapter **2.3.4 "Notes to the balance sheet", Note 10 "Non-current assets."**

Other information

The Supervisory Board is responsible for the **Report of the Supervisory Board** in chapter **4.4** of the Annual Report 2023. Management and the Supervisory Board are responsible for the declaration pursuant to Sec. 161 AktG ["Aktiengesetz": German Stock Corporation Act] on the Corporate Governance Code, which is part of the **Corporate Governance Statement** in chapter **4.5**, and for the **Compensation Report** in chapter **4.6**. In all other respects, management is responsible for the other information.

The other information comprises the Corporate Governance Statement, chapter **2.8.1 "Key features of the internal control and risk management system and statement on the appropriateness and effectiveness of these systems"** referred to above and the Group non-financial statement, also referred to above. In addition, the other information comprises further parts to be included in the report "Annual Financial Statements of Siemens Energy AG for the fiscal year ended September 30, 2023" and in the Annual Report 2023, of which we received a version prior to issuing this auditor's report, in particular:

- the **Responsibility Statement** in chapter **3.1** of the report **»Annual Financial Statements of Siemens Energy AG for the fiscal year ended September 30, 2023«**;
- the Further Information in chapter **3.3** of the report **»Annual Financial Statements of Siemens Energy AG for the fiscal year ended September 30, 2023«;**
- the chapters **»Siemens Energy Group at a glance«**, **»Letter from the Executive Board«**, **»Our leadership team«** and **»About this Report«** in the Annual Report 2023;
- the **Responsibility Statement** in chapter **4.1** of the Annual Report 2023;
- the **Report of the Supervisory Board** in chapter **4.4** of the Annual Report 2023;
- the **Compensation Report pursuant to Section 162 AktG** of Siemens Energy AG for fiscal year 2023 in chapter **4.6** of the Annual Report 2023;
- the **TCFD Index** in chapter **4.8** of the Annual Report 2023;

but not the consolidated financial statements and the annual financial statements, not the disclosures in the combined management report whose content is audited and not our auditor's reports thereon.

Our opinions on the annual financial statements and on the management report do not cover the other information, and consequently we do not express an opinion or any other form of assurance conclusion thereon.

In connection with our audit, our responsibility is to read the other information, and, in so doing, to consider whether the other information

- is materially inconsistent with the annual financial statements, with the management report or our knowledge obtained in the audit, or
- otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of management and the Supervisory Board for the annual financial statements and the management report

Management is responsible for the preparation of the annual financial statements that comply, in all material respects, with the requirements of German commercial law applicable to business corporations, and that the annual financial statements give a true and fair view of the assets, liabilities, financial position and financial performance of the Company in compliance with German legally required accounting principles. In addition, management is responsible for such internal control as management, in accordance with German legally required accounting principles, has determined necessary to enable the preparation of annual financial statements that are free from material misstatement, whether due to fraud (i.e., fraudulent financial reporting and misappropriation of assets) or error.

In preparing the annual financial statements, management is responsible for assessing the Company's ability to continue as a going concern. It also has the responsibility for disclosing, as applicable, matters related to going concern. In addition, management is responsible for financial reporting based on the going concern basis of accounting, provided no actual or legal circumstances conflict therewith.

Furthermore, management is responsible for the preparation of the management report that as a whole provides an appropriate view of the Company's position and is, in all material respects, consistent with the annual financial statements, complies with German legal requirements and appropriately presents the opportunities and risks of future development. In addition, management is responsible for such arrangements and measures (systems) as management has considered necessary to enable the preparation of a management report that is in accordance with the applicable German legal requirements, and to be able to provide sufficient appropriate evidence for the assertions in the management report.

The Supervisory Board is responsible for overseeing the Company's financial reporting process for the preparation of the annual financial statements and of the management report.

Auditor's responsibilities for the audit of the annual financial statements and of the management report

Our objectives are to obtain reasonable assurance about whether the annual financial statements as a whole are free from material misstatement, whether due to fraud or error, and whether the management report as a whole provides an appropriate view of the Company's position and, in all material respects, is consistent with the annual financial statements and the knowledge obtained in the audit, complies with the German legal requirements and appropriately presents the opportunities and risks of future development, as well as to issue an auditor's report that includes our opinions on the annual financial statements and on the management report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Sec. 317 HGB and the EU Audit Regulation as well as in compliance with German Generally Accepted Standards for Financial Statement Audits promulgated by the IDW and in supplementary compliance with ISA will always detect a material misstatement. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these annual financial statements and this management report.

We exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the annual financial statements and of the management report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinions. The risk of not detecting a material misstatement resulting from fraud is higher than the risk of not detecting a material misstatement resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit of the annual financial statements and of arrangements and measures (systems) relevant to the audit of the management report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of these systems of the Company.
- Evaluate the appropriateness of accounting policies used by the management and the reasonableness of estimates made by the management and related disclosures.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in the auditor's report to the related disclosures in the annual financial statements and in the management report or, if such disclosures are inadequate, to modify our respective opinions. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to be able to continue as a going concern.
- Evaluate the overall presentation, structure and content of the annual financial statements, including the disclosures, and whether the annual financial statements present the underlying transactions and events in a manner that the annual financial statements give a true and fair view of the assets, liabilities, financial position and financial performance of the Company in compliance with German legally required accounting principles.
- Evaluate the consistency of the management report with the annual financial statements, its conformity with German law and the view of the Company's position it provides.
- Perform audit procedures on the prospective information presented by management in the management report. On the basis of sufficient appropriate audit evidence we evaluate, in particular, the significant assumptions used by management as a basis for the prospective information, and evaluate the proper derivation of the prospective information from these assumptions. We do not express a separate opinion on the prospective information and on the assumptions used as a basis. There is a substantial unavoidable risk that future events will differ materially from the prospective information.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with the relevant independence requirements, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence and where applicable, the related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the annual financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter.

OTHER LEGAL AND REGULATORY REQUIREMENTS

Report on the assurance on the electronic rendering of the annual financial statements and the management report prepared for publication purposes in accordance with Sec. 317 (3a) HGB

Opinion

We have performed assurance work in accordance with Sec. 317 (3a) HGB to obtain reasonable assurance about whether the rendering of the annual financial statements and the management report (hereinafter the "ESEF documents") contained in the file "Siemens_Energy_2023.zip" and prepared for publication purposes complies in all material respects with the requirements of Sec. 328 (1) HGB for the electronic reporting format ("ESEF format"). In accordance with German legal requirements, this assurance work extends only to the conversion of the information contained in the annual financial statements and the management report into the ESEF format and therefore relates neither to the information contained within these renderings nor to any other information contained in the file identified above.

In our opinion, the rendering of the annual financial statements and the management report contained in the file identified above and prepared for publication purposes complies in all material respects with the requirements of Sec. 328 (1) HGB for the electronic reporting format. Beyond this assurance opinion and our audit opinions on the accompanying annual financial statements and the accompanying management report for the fiscal year from October 1, 2022 to September 30, 2023 contained in the "Report on the audit of the annual financial statements and of the combined management report" above, we do not express any assurance opinion on the information contained within these renderings or on the other information contained in the file identified above.

Basis for the opinion

We conducted our assurance work on the rendering of the annual financial statements and the management report contained in the file identified above in accordance with Sec. 317 (3a) HGB and the IDW Assurance Standard: Assurance on the Electronic Rendering of Financial Statements and Management Reports Prepared for Publication Purposes in Accordance with Sec. 317 (3a) HGB (IDW AsS 410) (06.2022) and the International Standard on Assurance Engagements 3000 (Revised). Our responsibility in accordance therewith is further described in the "Auditor's responsibilities for the assurance work on the ESEF documents" section. Our audit firm applies IDW Standard on Quality Management 1: Requirements for Quality Management in the Audit Firm (IDW QS 1).

Responsibilities of management and the Supervisory Board for the ESEF documents

The management of the Company is responsible for the preparation of the ESEF documents including the electronic rendering of the annual financial statements and the management report in accordance with Sec. 328 (1) Sentence 4 No. 1 HGB.

In addition, the management of the Company is responsible for such internal control as it has determined necessary to enable the preparation of ESEF documents that are free from material intentional or unintentional non-compliance with the requirements of Sec. 328 (1) HGB for the electronic reporting format.

The Supervisory Board is responsible for overseeing the process for preparing the ESEF documents as part of the financial reporting process.

Auditor's responsibilities for the assurance work on the ESEF documents

Our objective is to obtain reasonable assurance about whether the ESEF documents are free from material intentional or unintentional non-compliance with the requirements of Sec. 328 (1) HGB. We exercise professional judgment and maintain professional skepticism throughout the assurance work. We also:

- Identify and assess the risks of material intentional or unintentional non-compliance with the requirements of Sec. 328 (1) HGB, design and perform assurance procedures responsive to those risks, and obtain assurance evidence that is sufficient and appropriate to provide a basis for our assurance opinion.
- Obtain an understanding of internal control relevant to the assurance on the ESEF documents in order to design assurance procedures that are appropriate in the circumstances, but not for the purpose of expressing an assurance opinion on the effectiveness of these controls.
- Evaluate the technical validity of the ESEF documents, i.e., whether the file containing the ESEF documents meets the requirements of Commission Delegated Regulation (EU) 2019/815, in the version in force at the date of the financial statements, on the technical specification for this file.
- Evaluate whether the ESEF documents enable an XHTML rendering with content equivalent to the audited annual financial statements and to the audited management report.

Further information pursuant to Art. 10 of the EU Audit Regulation

We were elected as auditor by the Annual Shareholders' Meeting on February 7, 2023. We were engaged by the Supervisory Board on February 7, 2023. We have been the auditor of Siemens Energy AG without interruption since the fiscal year from October 1, 2016, to September 30, 2017.

We declare that the opinions expressed in this auditor's report are consistent with the additional report to the Audit Committee pursuant to Art. 11 of the EU Audit Regulation (long-form audit report).

In addition to the financial statement audit, we have provided to the Company or entities controlled by it the following services that are not disclosed in the annual financial statements or in the management report:

In addition to auditing the annual financial statements of Siemens Energy AG, we performed the statutory audit of Siemens Energy's consolidated financial statements, audits of financial statements of subsidiaries of Siemens Energy AG and reviews of interim financial statements integrated in the audit.

Audit-related services include primarily audits of plans for employee benefits, attestation services related to the sustainability reporting, the Compensation Report, the Group non-financial statement and the EU Taxonomy as well as other attestation services required under regulatory requirements, contractually agreed or requested on a voluntary basis, including services related to the issue of the Siemens Energy green bond.

Other matter – use of the auditor's report

Our auditor's report must always be read together with the audited annual financial statements and the audited management report as well as the assured ESEF documents. The annual financial statements and the management report converted to the ESEF format – including the versions to be published in the Unternehmensregister [German Company Register] – are merely electronic renderings of the audited annual financial statements and the audited management report and do not take their place. In particular, the ESEF report and our assurance opinion contained therein are to be used solely together with the assured ESEF documents made available in electronic form.

GERMAN PUBLIC AUDITOR RESPONSIBLE FOR THE ENGAGEMENT

The German Public Auditor responsible for the engagement is Katharina Breitsameter.

3.3 Further Information

Due to rounding, numbers presented throughout this and other documents may not add up precisely to the totals provided and percentages may not precisely reflect the absolute figures.

This document is an English language translation of the German document. In case of discrepancies, the German language document is the sole authoritative and universally valid version.

For technical reasons, there may be differences between the accounting records appearing in this document and those published pursuant to legal requirements.

The Independent Auditor's Report also includes a "Report on the assurance in accordance with Section 317 (3a) HGB on the electronic reproduction of the Consolidated Financial Statements and the Group management report prepared for publication purposes" ("ESEF Report"). The audit subject underlying the ESEF Report (ESEF documents to be audited) is not attached. The audited ESEF documents can be viewed or accessed at **www.siemens-energy.com**.
