Asia Pacific – Oil & Gas Production

Segment	O&G Drilling and Production
Duration	3 years
Equipment	11x 2RDH2 + Electric Motor
Equip. status	Approx. 110,000 OH

Customer Goals

- System availability to be achieved >98% (8 running + 3 standby compressors)
- Individual equipment availability >95%
- Single contract to maintain both compressors and motors
- Spare parts management

Our Solution

3 years O&M contract

- O&M crew for 24 hours with compressor and electrical expert
- Includes major overhaul of compressors
- Completed 8 years of O&M at same site

Customer Benefits

- Achieved availability >99%, individual compressor availability >98%
- 100% safety and no breakdown
- Spares planning with client for parts availability based on monthly report
- Lower capital costs through minimized inventory
