

Well placed to lead the energy transformation

Christian Bruch, President and CEO Siemens Energy
Analyst presentation BofA Global Industrials Conference
March 16th, 2021

Disclaimer

INFORMATION AND FORWARD-LOOKING STATEMENTS This document contains statements related to our future business and financial performance, and future events or developments involving Siemens Energy that may constitute forward-looking statements. These statements may be identified by words such as “expect,” “look forward to,” “anticipate” “intend,” “plan,” “believe,” “seek,” “estimate,” “will,” “project,” or words of similar meaning. We may also make forward-looking statements in other reports, prospectuses, in presentations, in material delivered to shareholders, and in press releases. In addition, our representatives may from time to time make oral forward-looking statements. Such statements are based on the current expectations and certain assumptions of Siemens Energy’s management, of which many are beyond Siemens Energy’s control. These are subject to a number of risks, uncertainties, and other factors, including, but not limited to, those described in disclosures, in particular in the chapter “Report on expected developments and associated material opportunities and risks” in the Annual Report. Should one or more of these risks or uncertainties materialize, should acts of force majeure, such as pandemics, occur, or should underlying expectations including future events occur at a later date or not at all, or should assumptions prove incorrect, Siemens Energy’s actual results, performance, or achievements may (negatively or positively) vary materially from those described explicitly or implicitly in the relevant forward-looking statement. Siemens Energy neither intends, nor assumes any obligation, to update or revise these forward-looking statements in light of developments which differ from those anticipated. This document includes supplemental financial measures – that are not clearly defined in the applicable financial reporting framework – and that are or may be alternative performance measures (non-GAAP-measures). These supplemental financial measures should not be viewed in isolation or as alternatives to measures of Siemens Energy’s net assets and financial position or results of operations as presented in accordance with the applicable financial reporting framework in its consolidated financial statements. Other companies that report or describe similarly titled alternative performance measures may calculate them differently. Due to rounding, numbers presented throughout this and other documents may not add up precisely to the totals provided and percentages may not precisely reflect the absolute figures.

Siemens Energy is a leader in the energy industry

Siemens Energy AG

**STRONG
GLOBAL PRESENCE**

**WORLD-CLASS SERVICE
ORGANIZATION**

**EXCELLENCE
IN LARGE PROJECTS**

**ENGINEERING
HERITAGE**

**UNIQUE CUSTOMER
APPROACH**

Our company program Energy of Tomorrow (EoT)

Accelerating Impact

- Focus and deliver on the fundamentals
- Co-create innovations with customers and partners
- Starting the energy transformation

Leading the energy transformation

- Most valued energy technology company
- Electrifying countries and communities
- Act as data-driven company

We energize society

Now

2023

2025

2030

Powered by
our people and our values

Executing our strategy

Detailed measures identified to deliver additional savings >€300m¹

Negotiations with the work council regarding further cost-out measure initiated with focus on:

- Operational cost improvement
- Corporate cost optimization

Novatek – More sustainable LNG production

Haru Oni – Climate-neutral e-fuel development with several partners (e.g. Porsche)

SGRE H2Mare – industrial-scale system capable of harvesting green hydrogen from offshore wind

Focus and deliver on fundamentals

Co-create innovations with customers and partners

Starting the energy transformation

Three pillars to our strategy

Low- or zero-emission
power generation

Transport of electricity
and storage

Reducing CO₂ footprint and energy
consumption in industrial processes

Our Sustainability Program has been structured along three dimensions that support our company purpose

WE

RESPONSIBLE OPERATIONS

- Inclusion & Diversity
- Occupational Health & Safety
- Cultural Transformation
- Training & Education
- Societal Engagement
- Anti-corruption & Integrity
- Human Rights
- Conservation of Resources
- Product Stewardship

ENERGIZE

DECARBONIZING OUR BUSINESS

Decarbonized products, services and solutions for our customers

Climate-neutral own operations

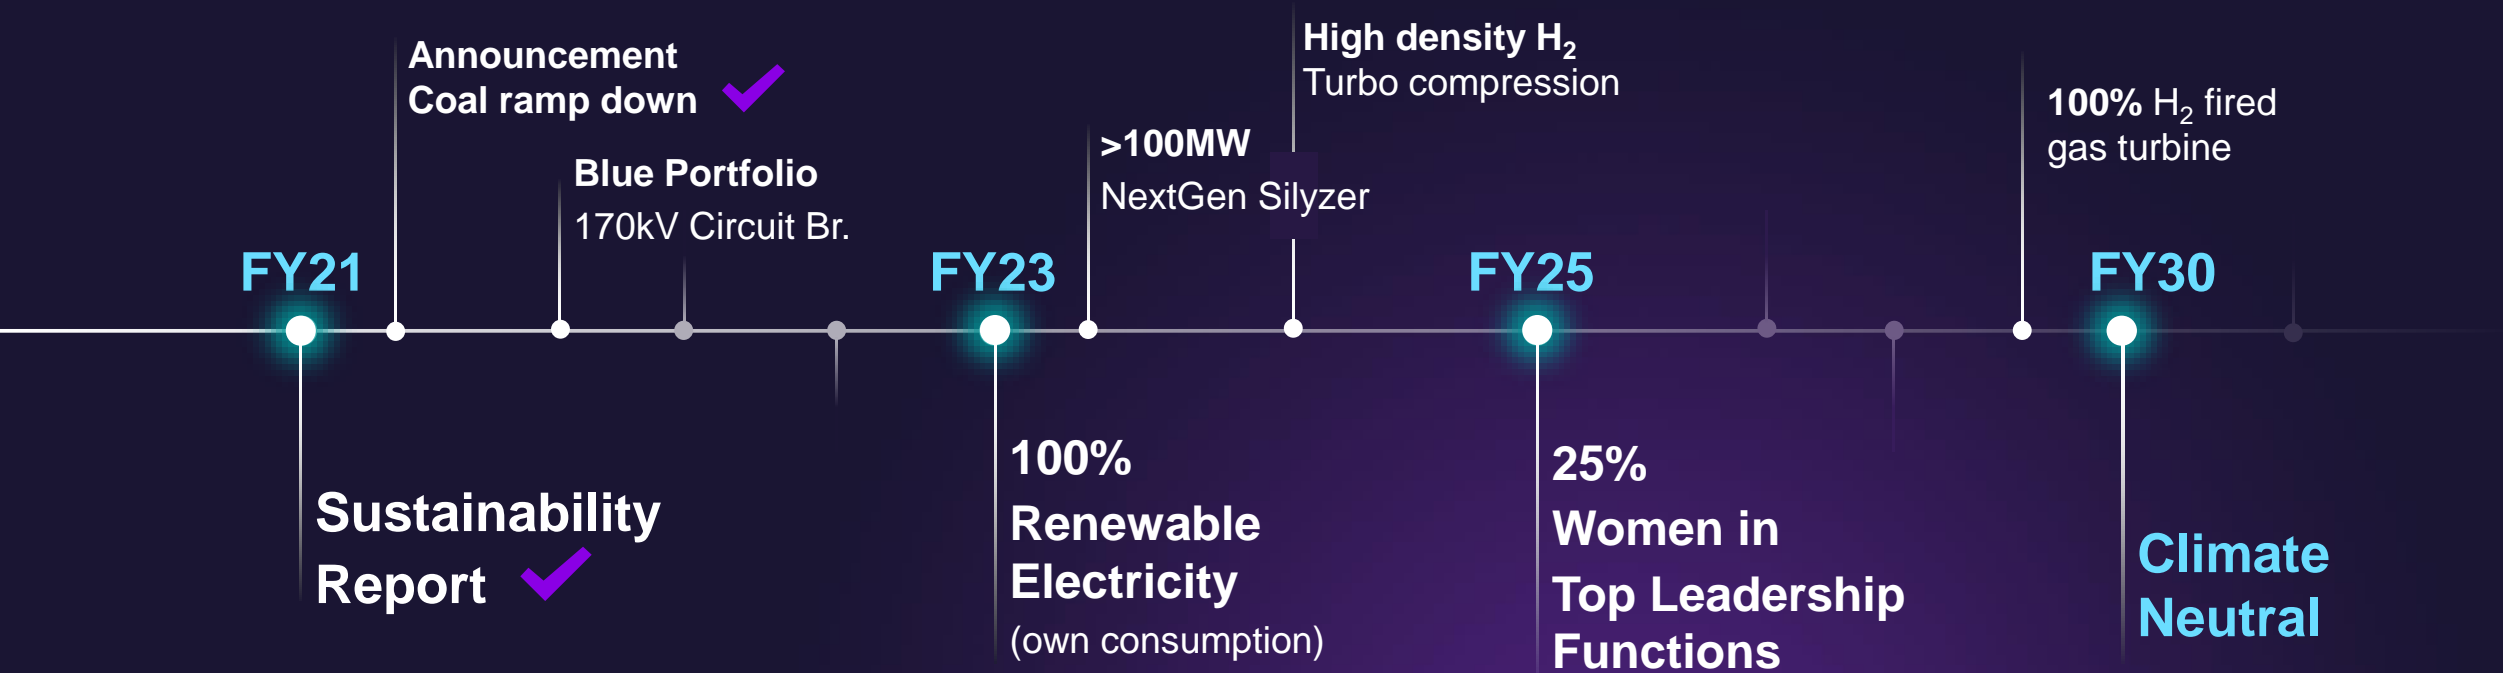

Decarbonized Supply Chain

SOCIETY

SOCIETAL IMPACT

ESG Agenda and Initiatives

Initiatives:

SE Carbon Neutral Program
Re-focused R&D

New Safety Culture & Behaviours initiative
Catalysta - Female Leadership Development

We are #TeamPurple #WeEnergizeSociety
