Information Security Policy

Siemens Energy d.o.o., Croatia

The purpose of this policy is to establish the basic principles and the general framework for the control and management of the information security risks.

Information security is our synonym for secure business. We have defined responsibilities for information protection, we raise awareness of the importance of information security among employees and business partners. We apply organizational and technical measures to protect the information assets of Siemens Energy d.o.o. and its customers.

We are committed to understanding and effectively managing risks related to information security to provide greater certainty and confidence for our employees, customers, suppliers and for the communities in which we operate. Finding the right balance between information security risk and business benefit enhances our business performance and minimizes potential future exposures.

We are committed to the continuous improvement of information security controls and culture throughout our business.

We are committed to fulfilling our obligations in this area in order to ensure:

- Compliance with the legal, regulatory and ISO 27001 requirements
- Information will be protected against unauthorized access
- Confidentiality of information will be maintained
- Information will not be disclosed to unauthorized persons through deliberate or careless action
- Integrity of information through protection from unauthorized modification
- Availability of information to authorized users when needed
- Information security trainings must be completed by all employees
- All suspected breaches on information security will be reported and investigated
