Middle East – LNG

Segment	LNG
Duration	10 years
Equipment	3x SGTs and 6x DATUMs
Equip. status	New Equipment

Customer Goals

- Single point of contract to maintain entire train assets including gas turbines, compressors and gear boxes
- Onsite technical resource for both gas turbine and compressor equipment
- Local inventory management

Our Solution

10 Years preventative service program with gas turbine and compressor

- Supervising level II minor overhaul and level III major overhaul
- Resident engineer for 10 years covering entire train
- 24/7 Helpdesk and OEM technical support
- Capital spares management (compressor bundles and gear sets)

Customer Benefits

- New equipment coverage to protect capital investment
- Guarantees of reliability, power output and heat rate performance
- Reduced operational risk and cost
