

Stefan Huppertz, Senior Vice President, Finance

Stefan Huppertz has been appointed Senior Vice President of Finance at Siemens Gamesa Renewable Energy as of September 4, 2023.

He has broad experience in the automotive and energy industry, a proven track record of managing turnaround cases and deep operations and finance expertise.

Stefan Huppertz studied Physics and Economics at Rheinische Friedrich-Wilhelms-Universität in Bonn and the University of Edinburgh.

He started his career in 2000 in the Management Consulting practice of Accenture before moving on to Siemens VDO in 2005 where he led the PMO of the company's Transformation program. Afterward, he spent four years at Continental as Director Business Controlling and Plant Controller.

In 2011, he joined Siemens AG as Segment CFO in the Concentrated Solar Power Business and later as VP Controlling and Finance of Energy Solutions. From 2015 on, Stefan Huppertz served as CFO of NEM Energy b.v.

He returned to Siemens AG in 2017 as Senior Vice President Finance in the Energy Solution Business being responsible for the Global Commercial Tender and Commercial Project Management. Since the carve-out of Siemens Energy in April 2020, Stefan Huppertz served as Senior Vice President Finance of the Business Unit "Grid Solutions" covering the global project business of Siemens Energy in the Grid Technology Business Area.
