

# NOTICE TO SUPPLIERS

Subject: EBQR Update to Version 4 – March 2024  
Originator: Kate Siegel

Job Title: AGT Supplier Quality Head  
Product Line: Aero Derivative Gas Turbine (AGT)  
Siemens Business Unit: Global

NTS Number: SC033  
Issue: 001  
Date: 10 -April-2024

For the attention of the Managing Director

Dear Sir or Madam

**Introduction.** This Notice to Suppliers (NTS) covers the latest to the Energy Business Quality Requirements (EBQR) for all Siemens Energy (SE) for Aeroderivative Gas Turbine (AGT) Suppliers, Maintenance Repair Overhaul Centers, and Repair Vendors (Suppliers).

**Scope/Applicability.** The purpose of the EBQR is to formally communicate the SE Supplier Quality guidelines and expectations to the global AGT supply chain. In this latest version of the EBQR some minor changes have been done to integrate and harmonize the requirements.

**Main changes:** Material compliance requirements (Section 8.1), NDA requirements (Section 8.4.3), Shelf-life requirements (Section 8.5.4) and NCC currency (Section 10)

**Link to Document:** This new version of the document is available on the SE supplier portal within the AGT section. If you require further information, please contact your Supplier Quality representative.
