# NOTICE TO SUPPLIERS

Subject: PFMEA and Production Permits

Originator: Kate Siegel
Job Title: AGT Supplier Quality Head
Product Line: Aero Derivative Gas Turbine (AGT)
Siemens Energy Business Unit: Siemens Energy AGT

NTS Number: SC035
Issue: 001
Date: November 4, 2025

For the attention of the Managing Director

Dear Sir or Madam

Introduction

This Notice to Supplier (NTS) is to make suppliers aware of a new requirement regarding production permits and Process Failure Modes and Effects Analysis (PFMEA).

Scope / Applicability

Applicable to suppliers of Siemens Energy - Aeroderivative Gas Turbines (AGT).

Action Required

All Siemens Energy suppliers must update their PFMEA when submitting a Production Permit. This update must assess the impact of the associated non-conformance and include any necessary changes to the manufacturing and measurement systems.
If requested, the revised PFMEA must be submitted to the designated Siemens Energy Supplier Quality Development (SQD) representative for review and approval.

With kind regards,

Siegel Kate
