

NOTICE TO SUPPLIERS

Subject: New concessions supplier portal (Fiori)

Originator: Cristina Curceanu
Job Title: Supplier Quality Manager
Product Line: Aero Derivative Gas Turbine (AGT)
Siemens Business Unit: Siemens Canada Limited

NTS Number: SC021
Issue: 001
Date: 23th April 18, 2019

For the attention of the Managing Director

Dear Sir/Madam,

In order to establish sustainable long-term business processes with our suppliers, Siemens Canada Limited has decided to develop a standardized non-conformance management process through our new Atlas Supplier Portal.

Siemens Canada Limited has created the Atlas Supplier Portal in order to further increase efficiency within the non-conformance reporting process with external suppliers: <https://cportal.siemens.com>

The Atlas Supplier Portal would offer two applications:

- QM Notification creation
- QM Task Management

Benefits for you and us will include:

- Process transparency
- Reduced susceptibility to errors
- Savings on process costs
- Assets optimization
- Accelerate the processes

Besides these functions the portal would serve as an interface to exchange **non-controlled documents** related to the non-conformance process. For further information, please refer to the supplier Fiori guidelines.

Using the Atlas Supplier Portal will help both our companies to improve our non-conformance process and build the best possible sustainable, long-term business relationship. We would like to take this opportunity to thank you very much in advance for your cooperation.

With kind regards,

Florina Cristina Curceanu
Supplier Quality Manager
