

Dr. Frank Schettler

Principal Key Expert and Product Lifecycle Manager
HVDC Solutions
Siemens Energy

Frank Schettler has been working with Siemens Energy in the field of power transmission systems since 1992. He is currently working as a Principal Key Expert and Product Lifecycle Manager for HVDC solutions in Siemens Energy, Erlangen. He is a convener of international working groups in the field of "System Aspects for HVDC Grids" at IEC and CENELEC. As a member of the VDE FNN expert group on HVDC and various European activities like the recently started EU R&D projects READY4DC and InterOPERA, he is actively involved with the development of HVDC grids.
