SIEMENS

New UK Warehouse location

Originator: John Giles
Job Title: Purchasing Manager
Product Line: Aero Derivative Gas Turbine (AGT)

NTS Number: ITC003
Issue: 1
Date: 26th June 2018

For the attention of the Managing Director & Logistics Manager

Dear Sir or Madam

Scope/Applicability: All Suppliers providing Engine/Package Parts & Tooling into the **UK Warehouse** for Siemens Power Generation Services - Distributed Generation Aero derivative Gas Turbines Division; Industrial Turbine Company (UK) Ltd.

Introduction:

Industrial Turbine Company (UK) Ltd will be consolidating warehousing activities with those of another Siemens business located in Lincoln, and as a result will no longer be operating from the DB Schenker Warehouse (Nuneaton).

The new facility, known as the Global Service Operations Centre (GSOC), is a 7,000sqm high-tech facility, which has taken 11 months to complete, and was officially opened on the 24th April 2018 by Thorbjørn Fors, Siemens CEO for PS DO.

GSOC will manage parts and services to support the Siemens global network and is currently home to around 16,000 parts. In August 2018 this will increase by a further 15,000 parts, as the Aero derivative Gas Turbine product line formally transfers to the advanced warehouse operations and spare core storage management facility.

Action Required:

Currently Suppliers deliver to our Warehouse in Nuneaton – c/o DB Schenker. As of **16th July 2018** all deliveries for Industrial Turbine (UK) Ltd (Siemens AGT) are to be delivered to the GSOC Warehouse. Existing Purchase Orders and Schedule Agreements will not be reissued, however should the delivery date fall after the 16th July 2018, you are requested to ensure that shipments to the new facility are made accordingly.

New Purchase Orders and Schedule Agreements circulated after the 16th of July 2018 will be issued with the new address.
