

NOTICE TO SUPPLIERS

Subject: New cross dock facility in Birmingham UK

Originator: Jay Jacobs
Job Title: Senior Manager, Supply Chain Operations
Product Line: Aero Derivative Gas Turbine (ADGT)
Siemens Business Unit: Siemens Canada Limited

NTS Number: SC008
Issue: 001
Date: 8th March 2016

For the attention of the Account Management Team in the UK

Dear Sir or Madam

Scope

This NTS is applicable to all vendors of Siemens Canada who are shipping from the UK.

Introduction

In December of 2015 in support of the transition from Rolls Royce to Siemens ownership our logistic model was changed to introduce K&N as our preferred service provider for shipments from the UK to Canada. Along with supporting infrastructure from UPS and TNT for local shipments into the UK cross-dock. The initial setup was using the K&N Heathrow facility as the cross dock for outbound shipments to Canada. After careful consideration and review of the past three months of operations it has been determined that the Siemens Canada Energy business would be better served by moving the K&N cross dock operations to their Birmingham facility.

This change will take effect the week of March 21st 2016. We will make the necessary changes to the TNT and UPS shipping accounts which are used to get the shipments to the K&N cross dock. Please take note of this change and modify any labeling or documentation referencing the K&N cross dock location.

New K&N Siemens Canada cross dock address;

Kuehne + Nagel Limited
Midpoint Park
Minworth
Birmingham
West Midlands B76 1BL

Key contact for our account is:

Mark Seckham
Operations Export Supervisor BHM
