

## Dr. Simon Sinsel

Head of Solution Portfolio Management  
Transmission  
Siemens Energy

Simon Sinsel's mission is to drive the energy transition across the boundaries of technology, business, and policy. In previous roles at the German Federal Foreign Office and the World Bank, he helped to strengthen sustainable development and good governance in Sub-Saharan Africa. At Siemens Energy, he is currently responsible for R&D & technology portfolio management for solutions that ensure stable and reliable power grids. Besides, he contributed to several World Economic Forum reports and is a fellow of the Club of Rome's Think Tank 30.
