

## Fabian Kuder

Product Manager Transmission Service  
Siemens Energy

**Booth expert**

Fabian Kuder studied Business Management and Mechanical Engineering at the University of Darmstadt, Germany. Joining the Siemens Family in 2012 as Senior Strategic Consultant, he quickly moved on to work as Business Developer for the Transformer business. In November 2016 he joined Siemens Energy Transmission Service as a Product manager where he drives the digitalization of condition assessment services by developing, promoting and managing systems such as SITRAM FreeCAM.
