

Additional information relating to Agenda Item 5

Ernst & Young GmbH Wirtschaftsprüfungsgesellschaft, Stuttgart, has been the auditor for the Siemens Energy Group since the fiscal year 2020. Thomas Spannagl (as the auditor responsible for the engagement) and Kristin Müller have signed as auditors since the fiscal year 2020.

Thomas Spannagl also signed the combined financial statements of Siemens Energy for the fiscal years ended September 30, 2019, 2018 and 2017 as the auditor responsible for the engagement. As auditors, Thomas Spannagl and Kristin Müller also signed the financial statements of Siemens Energy AG (formerly Kyros 52 GmbH and Kyros 52 Aktiengesellschaft, respectively) without interruption since the fiscal year 2017.

The Financial Market Integrity Strengthening Act (Finanzmarktintegritätsstärkungsgesetz - FISG) changed the maximum term of internal rotation of the responsible audit partners at a public interest entity from previously seven to five years. To facilitate the transition to the new regulation, this is to be applied for the first time to financial statement audits for the fiscal year beginning after December 31, 2021.
