

# Get connected: ESI+

Electronic Supplier Integration (ESI)  
Digitalization Purchase-to-Pay (P2P)

in cooperation with **SUPPLYON**

## What is the change?

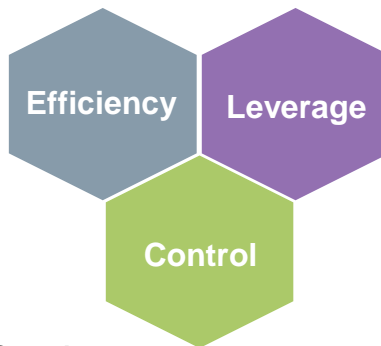

The ESI+ portfolio of solutions digitally connects our business partners End-to-End (E2E) in the Purchase-to-Pay (P2P) process.

This leads to a new level of business transparency that will allow us to leverage the Usability, Reliability and Agility of working in a digital fashion.

This maximizes the benefits for all business partners involved, delivering a foundation that can be expanded to increase value for our customers.

Our portfolio of solutions provides an option for each type of business partner, irrespective of your location, size or technical capability. You can experience the ease of use, the reliability and agility of Electronic Supplier Integration.

## What is the benefit?
