

NOTICE TO SUPPLIERS

SIEMENS

Subject: Termination of Exostar

Originator: Jay Jacobs
Job Title: Senior Manager, Supply Chain Operations
Product Line: Aero Derivative Gas Turbine (AGT)
Siemens Business Unit: Siemens Canada Limited

NTS Number: SC012
Issue: 001
Date: 11th November 2016

For the attention of the Account Management team

Applicability

All suppliers of Siemens Canada and ITCL currently receiving demand signals via the Exostar platform for GT orders.

Message

As you may or may not be aware Exostar was turned off by Siemens on Friday the 11th of November.

Please be advised the open order report sent out weekly is your new communication tool going forward until we are completely integrated in Siemens network at which point a new communication platform will be rolled out.

Be advised that this new platform will most likely not be ready before early 2018 as we do not expect to be integrated until late in 2017.

If there are orders that appeared on the last Exostar download and are not present on the open order report please advise the applicable MRPC managing your account here at Siemens ASAP so we can investigate why the order is missing.

We understand that this is a major change and we were hoping to advise you in advance of Exostar being shut off but unfortunately the changes were accelerated and we were not able to provide advance notice. We apologize any this inconvenience.

With kind regards,

Jay Jacobs
Senior Manager, Supply Chain Operations
Siemens Canada Limited
