

Dr. Mark Kuschel

Chief Technology Officer
Switching Products & Systems
Siemens Energy

Mark Kuschel obtained his diploma in electrical engineering in 1994 and his doctorate in 1999 at the Technical University of Berlin. He then started as a development engineer at Pirelli Kabelwerk Berlin. Since mid-2001, he has been responsible for various global functions in the area of high-voltage products and gas-insulated switchgear at Siemens / Siemens Energy. Since October 2018, he has been Chief Technology Officer at Switching Products and Systems. He is also very active in technical committee work, e.g., in Cigre B3 as Area Advisor for gas-insulated switchgear, in IEC as Vice Chair of TC99 and Secretary of SC17C.
