## Laurence Mulliez new Chairwoman of the Audit Committee at Siemens Energy

Laurence Mulliez (55) is the new Chairwoman of the Audit Committee at Siemens Energy. Mulliez takes over the position from Prof. Dr. Ralf Thomas (60), who already announced last year to step down as Chair after a transitional period.

Joe Kaeser, Chairman of the Supervisory Board of Siemens Energy AG: "I would like to thank Professor Thomas for his thoughtful management of the Audit Committee during this challenging period. I am pleased that with Laurence Mulliez we have a worthy successor who has excellent experience from international boards."

The Audit Committee is one of the most important committees of the Supervisory Board. Its tasks include monitoring the accounting process, the internal control system, and the audit of the financial statements. At Siemens Energy, the Audit Committee has eight members, who continue to include Ralf Thomas.

Laurence Mulliez is an internationally respected financial expert who has been a member of the Supervisory Board of Siemens Energy since September 2020. She has a degree in economics and finance from ESC Rouen, France, and has many years of leadership experience in the industry. Since 2019, she is Chairwoman of the Board of Globeleq Limited in London, United Kingdom. She is also Chairwoman of the Board of Voltalia SA in France.

**Siemens Energy** is one of the world's leading energy technology companies. The company works with its customers and partners on energy systems for the future, thus supporting the transition to a more sustainable world. With its portfolio of products, solutions and services, Siemens Energy covers almost the entire energy value chain – from power generation and transmission to storage. The portfolio includes conventional and renewable energy technology, such as gas and steam turbines, hybrid power plants operated with hydrogen, and power generators and transformers. More than 50 percent of the portfolio has already been decarbonized. A majority stake in the listed company Siemens Gamesa Renewable Energy (SGRE) makes Siemens Energy a global market leader for renewable energies. An estimated one-sixth of the electricity generated worldwide is based on technologies from Siemens Energy. Siemens Energy employs around 91,000 people worldwide in more than 90 countries and generated revenue of €28.5 billion in fiscal year 2021. [www.siemens-energy.com](https://www.siemens-energy.com).
