

Tobias Tepe

Vice President New Business and Digital Transformation
Transformers and BIC
Siemens Energy

Tobias Tepe is a mechatronics engineer with over 10 years of experience in the energy T&D business. He has deep experience in development, sales, and marketing of new portfolio elements. He has held leadership positions in T&D as well as decentralized energy generation. As the VP for New Business and Digital Transformation, he now leads the market introduction and growth for new portfolio elements.
