

## Minkel Cedeño

Business Development Manager  
HV Systems USA/Canada  
Siemens Energy

Minkel Cedeño is an electrical engineer with more than 20 years of experience in the HV/MV/LV equipment business for different market segments such as utilities, oil & gas, renewables, data center, and heavy industry. He has held a variety of roles in sales, product marketing, business development, and engineering. Currently, he is a key instrumental manager for high-voltage gas-insulated switchgear systems supporting our utility and industrial customers in the United States and Canada.
