

E-Invoice

Siemens Energy's Electronic Invoicing
#einvoice

What is the change?

The E-Invoice project **automates the invoice exchange** between Siemens Energy and its Suppliers using one of the EDI platforms like SupplyOn, Web4Bis, etc.

Siemens and our Suppliers **exchange Invoices electronically**, rather than via paper or email.

What is the benefit?

Both Siemens as well as our Suppliers benefit from the implementation of E-Invoicing.

Electronic Invoicing enables:

- **Transparent processes**
- **Reduced manual efforts**
- **Higher efficiency**
- **On-time payments**
- **Increased data entry quality**
- **Compliance**
- **Process security**

What is the solution portfolio?

SupplyOn

P2P platform for advanced business interactions

Web4Bis

Siemens In-House P2P platform with Web-UI
