

 **85 MW/min**  
world record ramp rate

 **<10 min**  
Industry-leading  
start up time

 **<30%**  
lowest minimum  
environmental load (MEL)

 **50%<sub>vol.</sub> hydrogen**  
co-firing capability

 **9 ppm NOx**  
lowest emissions  
optimized simple cycle

 **1,250 Starts**  
Best-in-class service interval

## SGT-9000HL Peaker

Enhancing renewables for a decarbonized future  
and securing grids with lowest generating costs
